20-Port Powered USB 3.0 Hub (Model A-213)

Connects and Charges Multiple Mobile Devices with a FutureDial Solution PC

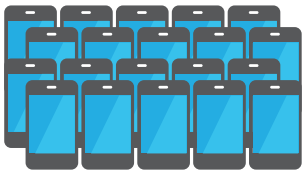
Improve Productivity and UPPH

A Powered USB Hub that makes Charging and Processing Easy for up to 20 Mobile Devices

FutureDial's new Powered 20-Port USB Hub (Model A-123) is a high speed, industrial-grade USB 3.0 Hub designed for use with FutureDial solutions. The Hub is designed to meet the requirements of high transmission performance and large current supply for use with smartphones, tablets, iPads and other mobile devices. The Hub delivers stable read-write performance and good heat dissipation, and is easy to install. Best of all, the Hub powers connected devices, so there is no power drain during processing.

Ideal for:

- FutureDial's Lean One-Touch™ software platform
- Large-Volume Mobile Device Trade-in Operators
- Reverse Logistics Warehouses
- Mobile Device Re-Commerce Processors



Handles up to 20 devices

FEATURES

- 20-port USB 3.0 transfer speed up to 5Gps.
- Charges device batteries/ eliminates power drain during processing.
- Built-in intelligent safety protections (over-current, over-voltage, short-circuit and over-temperature protection).
- Fully compatible with USB 1.1 and USB 2,.0, supporting hot plug, plug-and-play, without a driver.
- Built-in 5V 100W power to supply sufficient current.

SPECIFICATIONS

- Output Interface: USB 3.0 x 20 Ports with dual-channel USB PC-ports for computer interface
- Dimensions: (D) 5.75" x (H) 2.50" x (L) 7.125"
- Color: Black
- Case Material: Full aluminum alloy with anodic oxidization process for good heat dissipation.
- Current Protection/Hot-Plug: Supported
- LED Indicators: Green and Red
- O.S. Compatibility: Windows 10/8.1/8/7, Mac OS X 10.9 or later
- Certifications/Conformities: UL, RoHS approved
- Net Weight: 3.63 lbs (1650g)
- Gross Weight: 4.52lbs (2050g)
- OUTPUT: 1.4 Amps per port MAXIMUM POWER: 20 Amps
